Re: Request for information pursuant to Section 104 of
CERCLA for the Albion - Sheridan Township Landfill Site, in
Albion, Michigan.

I am in receipt of your certified mail materials and quite
frankly, I am surprised that I have been included in this
mailing.

I first came to the Albion, Michigan area in December of
1971. I remained in Albion until relocating to the Angola
area in July of 1985. While living in Albion, I was employed
by Hayes Albion Corporation as their Plant Personnel
Director. I had no responsibility for or knowledge of the
removal of materials for the facility and/or their disposal.
I am unaware of where such materials were taken for disposal.
In 1974, I was transferred to the Corporate office and
remained there until leaving Hayes Albion in 1980. I began
my own consulting business dealing with Human Resources
activities working out of the Jackson area.

I have included my responses to the questions submitted, and
as you will note, I have no knowledge of the activities
involving the landfill in question.

Sincerely yours,

George G. Chambers

Information Requests

Question #1: I did not consult with anyone since I have no knowledge concerning this landfill.

Question #2: None

Question #3: I have no knowledge of anyone having information concerning this subject.

Question #4: I have no knowledge in this matter.

Question #5: None

Question #6: No
